A detailed close-up photograph of an engine's timing belt system. The image shows a large timing belt pulley at the top, connected to a smaller pulley below it. A timing belt is looped around these pulleys. To the right, a water pump pulley is visible, which is part of the distribution kit. The engine components are metallic and show signs of use. The background is dark and out of focus.

A detailed close-up photograph of a car engine's belt system. A new, dark grey Micro-V belt is being installed or has just been installed. The belt is shown running across several pulleys, including a large crankshaft pulley at the bottom left and a smaller pulley at the top right. The engine components are metallic and show signs of use. A yellow electrical connector is visible on the left side. The text 'KITS DE BANDA MICRO-V®' is overlaid in white at the bottom left, with a decorative white diagonal line pattern below it.

**KITS DE
BANDA MICRO-V®**

A close-up photograph of an engine's timing belt and gears. The timing belt is a dark, ribbed rubber belt with a metal mesh reinforcement, running across several metal gears. The gears are made of polished metal and have visible markings, including '10.9' and 'E008 HSR'. The lighting is dramatic, highlighting the textures of the metal and rubber.

A close-up, high-contrast photograph of an engine's timing belt assembly. The central focus is a large, silver-colored timing gear with a central bolt. To its right, a smaller gear is visible, which is part of the water pump mechanism. The background is dark and blurred, showing other engine components. The overall lighting is dramatic, highlighting the metallic textures and the precision of the machinery.

A detailed black and white photograph of an engine's timing belt system. The central focus is a large, multi-grooved pulley with a central bolt. A timing belt with a distinct woven texture is wrapped around it. Below the pulley, the timing cover is visible, featuring a star-shaped bolt head. The background shows other engine components, including a smaller pulley and various metal parts, all rendered in high contrast.
